MYOB Advanced Platform benefits

1 Easy

MYOB Advanced is transforming the way larger Australian and New Zealand businesses work. It includes the Advanced Business and the Advanced People suite. MYOB Advanced Business is an online business Enterprise Resource Management system (ERP) and MYOB Advanced People is an online payroll system.

The Advanced Business and People suites deliver an end-to-end business management system that provides ERP and payroll functionality on a single platform. The benefits of this unified system are realised when information flows between functions, reducing duplication of effort, manual data entry and real-time business insights.

MYOB Advanced will eliminate hardware costs, giving you a fully customisable platform for a convenient monthly price. And your online data is securely stored locally, giving you the flexibility and freedom to work the way you want.

Helping larger Australian and New Zealand businesses succeed

As the leading local provider of business management software in Australia and New Zealand, MYOB has a rich history of innovation and leadership in business management, payroll and Human Resource (HRM) software. That's why we've partnered with Amazon Web Services (AWS), a best-in-class, high availability data centre. Located in the Sydney region, AWS uses the latest technology to ensure working with MYOB Advanced Business and Advanced People is a hassle-free, seamless experience.

Professional support and expert knowledge

For over 25 years, more than a million businesses have trusted MYOB for their accounting and business needs. MYOB Advanced software is implemented and supported by our MYOB Partner Network across Australia and New Zealand. MYOB Accredited Partners provide expert advice and work directly with you to match the right system to your business needs, both now and into the future.

2 Better value

Convenient monthly pricing plans

Now you can transition to a sophisticated, functionally rich system without a large upfront investment. MYOB Advanced Business and Advanced People are available for a convenient monthly subscription. Straight forward pricing options allow you to better plan and manage your business expenses throughout the year. You can also change your subscription plan to best suit your changing business needs.

No hardware to maintain

MYOB Advanced delivers extensive functionality without the need for complex and expensive servers or your own data centre. Users access MYOB Advanced from any browser based device making it an ideal solution for companies with multiple locations and/or a mobile workforce.

Grows with your business

As your business grows, so can your MYOB Advanced system. It's designed to be fully customisable, meeting your current business requirements while being flexible enough to meet future demands. Developed with scalability in mind, it will continue to support the growth and evolution of your business. That means you don't need to waste money investing in new software.

3 On The Go

Work anywhere, anytime

MYOB Advanced gives you the freedom to work securely online – anywhere, anytime. You have the flexibility to work from any device, all you need is a web browser and internet connection to access real time information, wherever and whenever you want. It's easy to set up and the user interface can be customised to meet the needs of the individual user.

Better still, the MYOB Advanced OnTheGo app can provide quick and easy access to a number of employee, CRM, distribution and service processes enabling staff to query and update transactions anywhere, anytime.

MYOB Advanced Business suite

Experience a fully featured business management system that covers your entire business operations, from administration to warehouse and everything in between. Every area of your business can benefit from MYOB Advanced Business. Whether it's reduced administration time, greater stock control or real time management reports – the gains are considerable and extensive.

MYOB Advanced People suite

Powerful features

- + Organisational workflow engine lets you define actions and approval requests.
- + Send email notifications to users, customers and suppliers when certain conditions are satisfied, like a shipped order or an assigned lead.
- + Customise screen views to match your business process – add or remove fields, make fields mandatory or change their position.
- + Use interactive dashboards and a full content-managed Wiki to quickly provide users with relevant business information.

Effective inventory management

- + Maintain detailed information on your inventory including supplier codes, barcodes, cost and sell pricing history.
- + Track inventory levels and costs across multiple warehouses and locations.
- + Advanced inventory management features include serial and batch tracking, kit assemblies and bin locations with pick priorities.
- + Manage multiple customer and supplier price lists including order discounting policies.

Streamlined sales and purchasing

- + End-to-end sales order and back order management, including freight calculations and automatic customer notifications.
- + End-to-end purchase order and landed cost tracking.
- + Advanced purchasing features including blanket orders, purchase requisitions and bid management, and forecast based purchasing, blanket orders and purchase requisitions.
- + Interactive customer portal that allows customers to view and download invoices and statements, check inventory, add to cart and then check out sales orders.

General ledger and accounting

- + Enterprise level financial and budgeting features.
- + Full support and handling for multi-currency.
- + Multi-company support with inter-company consolidation.
- + Manage and understand your cash position with cash flow forecasting and reporting.
- + A full suite of financial analysis reports, including GST and BAS reporting.
- + Fixed asset management.
- + Debt collection, payment instalments and a range of other tools to simplify business management.

Integrated CRM and customer service

- + Maintain a database of prospects, customers and contacts.
- + Manage leads and easily convert to sales orders.
- + Create marketing lists and email campaigns to connect with prospects and customers.
- + Collect leads from your website.
- + Track service cases and tasks logged by your customers.
- + Publish a knowledge base via the customer portal.

Comprehensive project accounting

- + Track and report on projects, tasks and budgets.
- + Automate project billing with our pre-defined allocation and billing rules engine.
- + Allocate transactions and costs from other Advanced modules directly to projects, such as invoices from suppliers, invoices to customers, journals from the GL and receipts from purchasing.
- + Employees can enter time and expenses from any mobile device via the MYOB Advanced OnTheGo app.

MYOB Advanced People is a modern, full featured online payroll solution developed on the MYOB Advanced Platform. It's perfect for leading edge businesses who want to take advantage of a modern payroll solution that is embedded within the same platform as your ERP to further simplify your business processes and improve efficiencies.

Incredibly flexible

MYOB Advanced People is a feature packed payroll solution that has powerful pay item and entitlement functions, catering to many employees needs. It allows for multiple employee pay groups across several pay frequencies, giving you more control to manage payroll, your way.

Designed with integration in mind

MYOB Advanced People has streamlined pay processes that save time and effort when paying employees, with GL journals and payment batches automatically generated. Advanced People provides information to users in interactive forms without the need to print information out to paper based reports.

Payroll transactions, entitlement accruals and tax liabilities are displayed on-screen, saving time and effort reconciling amounts for both employee pays and government reporting obligations.

Simplified compliance

Tax compliance for both Australia and New Zealand is made easy with our online tax engine. This means tax rates and thresholds are maintained by MYOB and these changes automatically flow through to you. Rest easy knowing you will always be using the latest rates as defined by the ATO and IRD.

At MYOB, clients drive our world. For over 25 years we've been developing and delivering solutions to make life easier for business of all shapes and sizes.

MYOB has been a large player in the Australia and New Zealand bigger business sector for many years. We have on-premise and cloud ERP, Payroll and HRM products specifically designed for larger more complex businesses, just like yours. The MYOB Advanced Business suite has three editions available – Standard, Plus and Enterprise.

MYOB Advanced People is a feature packed payroll solution integrated with Advanced Business to yield realtime competitive business benefits. MYOB Advanced is flexible to grow with you when the need arises, and you only pay for the features you actually use.

Want to hear about one of our Advanced Business success stories?

Moving online meant Kosmea needed to take a deep look at its business software needs – and MYOB Advanced came out on top.

KOSMEA®

Overview

To say Kosmea Australia started from humble beginnings is an understatement. Kosmea founder Marie Kapetanakis established her business from the kitchen of her Adelaide home back in 1993, and more than 21 years later she now sells her range of natural skin care products throughout Australia as well as to Canada, Hong Kong, Japan, Singapore, UK and the USA.

At the heart of Kosmea's business is the core promise 'skincare as nature intended'. The specially formulated range of natural skincare is centred around wild crafted and certified organic rosehip oil and the finest herbal, plant and flower extracts from Australia and around the world. With current staff numbers at 10, the company continues to grow and aims to expand beyond its existing stockists which include a number of health food stores, national pharmacy chains and high end retailer David Jones.

Kosmea have achieved organic growth in a competitive market.

Problem

It was time for a makeover

The Health and Beauty market is ultra-competitive and while Marie Kapetanakis has been very loyal to MYOB, "I still have the original box on my shelf!" she knew that there had come a point where Kosmea needed to review their existing software. "We were using AccountRight Premier Enterprise but we had reached the point where the demands of our business were growing significantly and we needed to upgrade", and with an eye to the future Marie knew "we wanted a cloud solution, as opposed to going down the path of replacing the server."

There were some unique complexities to consider as Marie points out: "We have multi warehouse requirements which requires stock to be held in an outsourced warehouse, a 3rd party manufacturing site, as well as holding stock in our own office, all of which needs to be identified at a moment's notice. Plus, as we sell into overseas markets it was crucial our software could continue to easily and simply handle multiple currencies."

"We had reached the point where the demands of our business were growing significantly and we needed to upgrade."

Solution

A step up to the cloud broadened horizons

Kosmea met up with an experienced MYOB Enterprise Partner. Going with MYOB was not a given as Marie points out, "While we have a lot of trust in the MYOB brand and have been using their products for 20 years, loyalty is earned, not taken for granted" so a through evaluation of competitive products was conducted.

After the evaluation Kosmea decided upon the one integrated solution that met all of their needs and had the capacity to help the company grow into the future – MYOB Advanced. Marie sums up, "we have trust in the MYOB brand and as it turned out their Advanced solution really did have everything we needed. Firstly, it was cloud-based software which is perfect for our team working off site, but much more than that, MYOB Advanced could accurately control our inventory, manage customer special pricing and segment our customer groups without any drama."

"We have trust in the MYOB brand and as it turned out their Advanced solution really did have everything we needed."

Outcome

The beauty of 100% flexibility and visibility

Scenario based training in each module was conducted to familiarise the team with their data and the 'look and feel' of the new system so everyone was comfortable before the 'go live' date. On-demand support continues now the system is 'live'.

From a business perspective, Kosmea now has more flexibility and visibility, in no small part due to the fact that everybody – including those working off site – has access to critical information and numbers, which in turn improves productivity. Furthermore, with online sales growing the CRM component of the Kosmea website will become an extremely valuable tool. And, with a new website planned that will talk with MYOB Advanced, B2B and B2C information will be seamlessly integrated.

While Kosmea has come a long way Marie Kapetanakis is looking to what's ahead: "We have a solid foundation to grow on and MYOB Advanced can help us expand the business, particularly as we enter the US market which will see us embark on further development of product." She concludes, "From every perspective we are more streamlined and more productive and that gives us more confidence to move forward."

"We have a solid foundation to grow on and MYOB Advanced can help us expand the business."
